

Steps to access Bamboo Web portal <http://bambooindia.org> which is hosted on ICFRE web server.

Portal is accessible outside ICFRE network (LAN/VPN) without doing any changes in the system.

As the DNS is located outside ICFRE, steps to access the web portal in ICFRE network(VPN/LAN) are as below:

Do the following changes in the system.

- 1) Go to : C:\WINDOWS\system32\drivers\etc  
Edit hosts file using notepad and add below mention line in the last of file and save it.

**172.16.104.37 bambooindia.org**

- 2) Open web browser, go to setting -> change proxy setting -> LAN settings -> advance -> under exception add bambooindia.org and click ok

**Or**

Portal can be accessed from host IP (172.16.104.37) without doing above changes.
