Project 1: Assessment of the impact of forest fire on regeneration of forests in Andhra Pradesh [FRC-X01/EB-01/2002-2007]

Findings: Phyto-sociological studies were conducted in Mancherial and Jannaram Forest Divisions of Andhra Pradesh representing southern dry deciduous forest types to study the effect of fire on natural regeneration of forest vegetation. Soil samples were analyzed to study the effect of fire on physical and chemical properties of soil.
