

पृथ्वी दिवस 2024 के आयोजन पर रिपोर्ट Report on Celebration of Earth Day-2024

#Mission LiFE@ ICFRE-Himalayan Forest Research Institute, Shimla celebrated Earth Day on 22nd April, 2024 in the institute. Dr. Jagdish Singh, Scientist-G and Head Extension division discussed about background, aims and objectives of Earth Day celebration. He also suggested ways to reduce the single use plastic. Dr. Sandeep Sharma, Director, HFRI Shimla told that plastic in landfills affect hydrological function. He also told that saving the earth's environment is not only the responsibility of any government or organization but is the collective responsibility of all of us. He further informed that there is target to reduce use of plastic up to 60 % by 2040. Beside, painting competition was also conducted, in which employees and project staff participated. Ms. Seema, Ms. Anita Chauhan and Sh. Rishabh secured first, second and third position, respectively. Director, HFRI Shimla distributed certificate and prizes to winners. Sixty participants including Scientists, Officers, officials and Project Staff attended the programme. Dr. Joginder Singh Chauhan, CTO coordinated the event. Sh. Kulwant Rai Gulshan, Sr. Tech. anchored the programme and he and Sh. Swaraj Singh, Technician also assisted in organizing the programme.
